

Well Child Check

Protect and support your child's development with regular check-ups.

Why get a well child check?

These appointments are dedicated to talking to your child's provider about your child's:

- Growth and development
- Family's health
- Everyday life and challenges
- Successes and milestones

What happens during a well child check?

These topics may include:

- Blood lead screening
- Behavioral health screening
- Eating or sleeping problems
- Hearing or vision screening
- Vaccines
- Oral health
- Parent/caregiver concerns

Your child should get a well child check at the following ages:

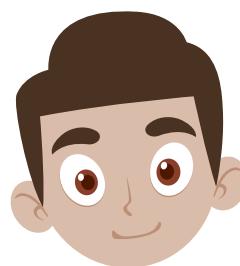

BEFORE AGE 1

- 7-14 days
- 1 month
- 2 months
- 4 months
- 6 months
- 9 months

AGES 12-30 MONTHS

- 12 months
- 15 months
- 18 months
- 24 months
- 30 months

AGES 3 - 18 YEARS

once a year
